Image Annotation Using Callouts

This example was created using an image from LearnAlberta.ca (India Images Collection) and Microsoft Word.

The colour-coded callouts are used to indicate evidence of factors contributing to quality of life, such as

- food and water
- clothing and shelter
- friends and family
- **job or source of money to buy necessary things**
- schooling to be able to read and write
- **freedom to act and ability to get around (transportation)**
- opportunities to do interesting things
- safety and protection
- health care
